Transco General Rate Case Filing (RP18-1126-000)

On August 31, 2018 Transco filed a Section 4 general rate case proposed to be effective October 1, 2018. After suspension, the increased rates are expected to become effective March 1, 2019, subject to refund. The principal factors supporting the increased cost of service are (a) an increase in operation and maintenance expenses, (b) an increase in depreciation expense, and (c) an increase in return and related income taxes. Rivervale South to Market Project (Docket No. CP17-490-000)

On August 10, 2018, the Commission issued a certificate authorizing Transco to construct and operate the Rivervale South to Market Project. This project will enable Transco to provide 190,000 dekatherms per day of incremental firm transportation capacity from the interconnection with Tennessee Gas Pipeline Company, L.L.C. in Bergen County, New Jersey to Transco's Central Manhattan Meter Station in Hudson County, New Jersey and the Station 210 pooling point in Mercer County, New Jersey. Transco filed to accept the certificate on August 15, 2018.

Market Area Pooling Changes (Docket No. RP18-1045-000)

On August 3, 2018, Transco filed tariff records to implement a revised assessment of pooling charges at the Zone 5 and Zone 6 pooling points, consistent with the *pro forma* tariff records approved by the Commission by Letter Order issued on April 17, 2018 in Docket No. RP18-568-000. The tariff records submitted in the August 3, 2018 filing are proposed to become effective on October 1, 2018.
