

## Notice of Locations Electronically Confirmed

Confirming parties continue to transition from manual confirmations to the use of electronic confirmations. Transco is available to help interconnecting operators convert to electronic files. For operators interested in transitioning to electronic confirmations, please contact your Commercial Services Representative.

Interconnect parties conducting confirmations electronically could result in a slight change in workflow for shippers who have relied in part on previous manual confirmations. For this reason, Transco notifies shippers that the following interconnecting pipelines have converted to electronic confirmations for the locations shown. As other locations convert, this posting will be updated. If you have any questions, please contact your Commercial Services Representative.

Effective Date	Location	Location ID	Interconnecting Pipeline	Notes	
9/1/08	ATLANTA GAS LIGHT	1003410	AGL SERVICE COMPANY		
9/1/08	ELIZABETHTOWN	1006559
