### **Motion Filing to Place Suspended Tariff Records into Effect (Docket No. RP24-1035-003)**

On February 28, 2025, Transco submitted a motion filing, in Docket No. RP24-1035-003, to place into effect March 1, 2025 certain revised tariff records, filed August 30, 2024 in a general section 4 rate proceeding in Docket No. RP24-1035, which were suspended by the Commission in their “Order Accepting Tariff Records, Accepting and Suspending Tariff Records, Subject to Refund, and Establishing Hearing and Settlement Judge Procedures” dated September 30, 2024, as modified by its October 8, 2024 “Errata Notice”. Consistent with Section 154.303(c)(2) of the Commission’s regulations, the suspended tariff records have been revised to eliminate the cost of facilities not in service as of February 28, 2025, the end of the test period in this proceeding. This filing also explains that the cost of service for certain services increased above that underlying the rates included in the August 30, 2024 Filing. Therefore, Transco is including in its submitted motion filing to place into effect March 1, 2025 certain tariff records that Transco has elected to cap at the level that was reflected in the general section 4 rate proceeding filed on August 30, 2024 in Docket No. RP24-1035.

### **Southeast Energy Connector Initial Rates Filing (RP25-652-000)**

On February 28, 2025, Transco submitted the initial rates filing in Docket No. RP25-652-000 for Southeast Energy Connector (SEC), providing 150,000 dekatherms per day from supply points in Mississippi and Alabama to an existing electric power generator located in Shelby County, Alabama. The tariffs are proposed to be effective April 1, 2025.

### **Texas to Louisiana Energy Connector Initial Rates Filing (RP25-654-000)**

On February 28, 2025, Transco submitted the initial rates filing in Docket No. RP25-654-000 for the Texas to Louisiana Energy Pathway, providing 364,000 dekatherms per day of firm transportation service. The tariff records are proposed to be effective April 1, 2025.

### **Annual Fuel Tracker Filing (Docket No. RP25-660-000)**

On February 28, 2023, Transco submitted revised tariff records pursuant to Section 38 of Transco’s General Terms and Conditions (“GT&C”) of its FERC Gas Tariff showing the redetermination of its fuel retention percentages applicable to transportation and storage rate schedules. The derivation of the revised fuel retention percentages included herein is based on Transco’s estimate of gas required for operations (“GRO”) for the forthcoming annual period April 2025 through March 2026 plus the balance accumulated in the Deferred GRO Account at January 31, 2025 the end of the annual deferral period. The tariff records are proposed to be effective April 1, 2025.

**Annual Electric Power Tracker Filing (Docket No. RP25-667-000)**

On February 28, 2025, Transco submitted revised tariff records pursuant to Section 41 of Transco's GT&C to reflect net changes in the Transmission Electric Power ("TEP") rates. The TEP rates are designed to recover transmission electric power costs for electric compressors and gas coolers located at Transco's compressor station locations. The tariff records are proposed to be effective April 1, 2025.
