Mid-Atlantic Connector Expansion Project (Docket No. CP11-31)

Transco commenced service under its Mid-Atlantic Connector Expansion Project on January 5, 2013. The project provides 142,000 dekatherms per day of firm transportation from Rockingham County, North Carolina to delivery points on Transco's mainline in Maryland.

Rockaway Delivery Lateral Project (Docket No. CP13-36)

On January 7, 2013, Transco filed a 7(c) certificate application for authorization to construct, own, and operate the Rockaway Delivery Lateral Project. The project will enable Transco to make deliveries into National Grid's distribution system at a new delivery point on the Rockaway Peninsula in Queens County, New York and will provide 647,000 dekatherms per day of firm transportation service under Rate Schedule FDLS. The target in-service date is November 1, 2014.

Leidy Southeast Expansion Project (Docket No. PF13-5)

On January 29, 2013, the Commission approved Transco's request to initiate a pre-filing review of its proposed Leidy Southeast Expansion Project, an expansion of Transco's existing natural gas transmission system that will enable Transco to provide 469,000 dekatherms per day of incremental firm transportation service from receipt points on Transco's Leidy Line in Pennsylvania to delivery points on Transco's mainline as far south as Transco's Compressor Station 85 in Choctaw County, Alabama. The target in-service date is December 1, 2015.
