Mobile Bay South III Expansion Project (Docket No. CP13-523)

On January 24, 2014, the Commission issued an environmental assessment (EA) for the Mobile Bay South III Expansion Project. The EA assesses the potential environmental effects of the construction and operation of the Project in accordance with the requirements of the National Environmental Policy Act. The FERC staff concludes that approval of the project, with appropriate mitigation measures, will not constitute a major federal action significantly affecting the quality of the human environment. Comments on the EA are due on, or before, February 24, 2014.
